THE CIRCUS. The advent of the Cynocephalus has drawn a great deal of attention to Mr. Lent's New-York Circus. This trained animal performs skillful feats, and manifests s singular kind of intelligence. He is ugly and flerce; but he has been well taught and is skillfully exhibited. The Circus season will last two weeks longer.

MISCELLANEOUS. Good houses continue to reward the manscement of the Olympic Theater, for the care, taste, and liberality that marked the production of Mr. Daly's play of "Herizon.",...Mr. Boncienult's "Jezebel," which has been acted nine times at the Fifth Avenue Theater, will, he is announced, be withdrawn from the stage, after four additional representations. Mr. Charles Mathews will appear at the Fifth Avenue Theater, next Monday even-ing, in "Patter vs. Clatter" and "Married for Money." Maris Seebach will return to the Stadt Theater, and appear on Saturday evening as Leonora-thus present-ing herself in a new character. On the 27th inst., she designs to sail for Europe.

## THE TAX-LEVY.

To the Editor of The Tribune.

Sir: Your reply of this date to "A Republican Assemblyman" does not give all the reasons why the Tax Levy should not be supported by a single Re-publican, or, for that matter, by any decent Democrat.

I happened to be in Albany last Winter when the Tax-Levy passed the Assembly. It was put through by al most a strict party vote, without debate, and under the operation of the previous question. One amendment, however, was proposed and promptly voted down, every Democrat voting against it.

The amendment referred to was offered by Mr. Alvord of Onendaga, and supported by Mr. White, then a mem her from this city. It in substance transferred the power of legalizing the Tax-Levy to the local Board of Supervisors, the same as now exists in every other county of

The Democratic hue and cry was: "The City of New-York is ruled by Black Republican legislation at Albany we are saddled with unjust commissions; with onerous fax levys; and are in nowise responsible for a conceded bad local Government. Give us our freedom and we will show you the difference, by giving the people of the City of New-York a better local Government at a much less expense, and work a great benefit to all classes and conditions in life." With these sonerous promises still ringing in the Assembly Chamber, the consistent Democracy, a solid vote, actually refused to have the power of legalizing the Tax-Levy conferred upon the Board of Supervisors, whom they were about to elect under the new Charter, and whom they said were to be made up of he very best men of the city. (Alas for the best men !)

New, I take it that this Republican Assemblyman de elres to do his duty as a legislator; indeed, he is sworn to do it. How can he do it by voting for a Tax-Levy he knows nothing about, and is not permitted to know anything about 1 If his vote is needed, let Tweed & Co. show

When is the Controller's Report, exhibiting the details, going to make up the huge aggregate!

Without this information, how can Assemblyman tell how much is plunder and swag? How can he tell, without having some official data, what

he is voting for ! The State Tax is always thoroughly debated and fully

explained in all its details. Let every Republican-now that the responsibility is thrown upon the Legislature by the act of the Democrats themselves—refuse to vote for it until every item is sifted and explained. Then his conscience will be vindicated, and his duty be fully performed; but "going it blind," is

going for an outrage, which no Republican ought to sanc tion by his vote. A TAX-PAYER. New-York, March 27.

WASHINGTON.

THE SANTO DOMINGO REPORT FINISHED AT LAST
-EX-CONGRESSMEN TAKEN CARE OF-THE SOUTHERN INVESTIGATING COMMITTEES. [BY TELEGRAPH TO THE TRIBUNE.]

WASHINGTON, Tuesday, April 4, 1871. The Santo Domingo report, the subject of which has occupied so large a portion of public attention for several weeks, has at last been finished. It is now agreed that no recommendation or expression of opinion whatever will be made. It has been put in type and slips have been printed, and the present intention is to send it to the President to-morrow. The President has a message already prepared, and will send this report to Congress without any recommendations as to his wishes. It is understood it will be referred to the Foreign Committee of the Senate.

A number of the Republican ex-members of the last Congress have already been provided with comfortable appointments by the President. Senator Howell of Iowa and Representative Ferris of New-York are mem bers of the Southern Claims Commission; Gen. Schenck and Senator Williams are on the Joint Commission for settling the English difficulties; Mr. Buck of Alabama has been appointed Appraiser of Merchandise at Mobile; Mr. Hamilton of Florida is made United States Marshal for the Northern District of that State; Mr. Smith of Iowa becomes Receiver of Public Moneys at Sioux City, Mo.; Mr. Witcher of West Virginia is Collector of the Revenue in the district he lately represented; Mr. Prosser of Tennessee goes into the Nashville Post-Office; Mr. Roots of Arkansas has been given the Marshalship of the Western District of that State; Mr. Laflin of New-York steps into the highly lucrative post of Naval Officer in New-York City; Mr. Orth of Indiana was offered the mission to Brazil, but did not want it; and Senator Thayer of Nebraska can have the Portuguese mission if he wishes. A number of other anxious ex-members remain yet to be provided for.

It is probable that an investigation into the condition of affairs at the South will be made this Summer, and that the passage of a law to suppress the Ku-Klux outrages will not obviate the necessity for such an investigation or lessen its importance. The long debate in Congress has made people anxious to know all the facts, and although Gen. Butler, and a few others, believe that it will be useless to send a Committee South, a large majority of the Republicans believe that a thorough investi-gation ought to be made, and that the result will fully justify the action of Congress in adopting additional legislation to secure peace and order. At present there is a Senate Committee on Southern Affairs fully organized and at work, and a House Committee not fully o ganized, the vacancies caused by the resignation of several of the members not having been filled. Beside, there is a resolution pending for a Joint Committee, intended to supersede both the House and Senate Committees, which originated in the Senate, was amended by the House, and is now waiting action in the Senate. If this does not finally pass, it is probable that the two Committees will go to work separately soon after the adjourn-

IGENERAL PRESS DISPATCELL

Postmaster-General Creswell to-day ordered a resump-Hon of the postal service on the Louisville and Lexington Railroad in Kentucky, which had been suspended for some time, on account of an assault upon the route agent employed on that line. The Secretary of War reported to the Postmaster-General that troops have been placed along the line of that read in order to prevent any further trouble, and that it is deemed safe to resume the service. The colored man upon whom the assault was made has resigned, and a new agent has been ap-pointed.

The Rev. Dr. Newman, at the close of his services on Sunday night, announced that Mrs. Newman had been quite successful in her collections for a chine of bells for the Metropolina M. E. MR. SUMNER'S SANTO DOMINGO POLICY. PROTECTORATE, ITS ADVANTAGES-MR. SUM-NER'S INTERVIEW WITH FABENS-A WEST INDIAN REPUBLIC. [FROM OUR OWN CORRESPONDENT]

Washington, D. C., April 4.—One of the strongest arguments in favor of annexation made by hose who accompanied the Santo Domingo Commission is the utterly helpless and hopeless condition of the Government and people of the Island. They say that since Gen. Babcock first visited the Republic, the inhabitants have hung their hopes on annexation, and that to disappoint them now would ill become the dignity of a great nation like the United States. Mr. Sumner, recogzing the force of this argument, while he denies that the Executive had the right to make any promises to Baez and his people, has a polley to recommend, though, An astrologer, who calls herself Arabella in the heat of his opposition to amexation, he has some purpose. A long discussion ensued, involving the sectarian apmending discussion ensued in the heat of his opposition to amexation, he has same purpose. A long discussion ensued, involving the sectarian appropriation of the propriation question in all its length and breadth. Measure, and propriation question in all its length and breadth. Measure, and propriation question in all its length and breadth. offices to a destitute, weak and sadly misruled people, he is ready to extend to them the protection of the "Great making Santo Domingo the client of the Inited States, as Roman patricians of old sometimes

made favorite cities their peculiar care.

The advantages of a protectorate, it is argued, would be many, while it would not be open to the most serious of the objections which are urged against annexation. a reciprocity treaty, trade with the island would be opened and American enterprise in developing the boundless resources of the country would be encouraged, while't the United States would be spared the necessity of trying what is considered by many the hazardous experime of attempting to absorb under our American institutions another foreign and perhaps discordant element. The great expense of building forts and of otherwise defending the island would also be avoided, and it would not be necessary to manitain then an army of civil officers to collect revenue, transport mails, &c. Santo Domingo would, at the same time, it is said, cain almost all that she hopes from annexation-a staple Government menaced neither by rebels at home nor by enemies from abroad, the development of her natural resources, and

the revival of her trade.

This policy of Mr. Summer is not a new one with him, but was announced when annexation was first proposed. While the treaty which Gen. Babcock negotiated was pending, and after it was known that Mr. Sumner was opposed to annexation, Fabens, then Envoy Extraordinary from the Baez Government to the United States, called on the Massachusetts Senator to confer with him on the subject, and to win his support of the measure.

Mr. Summer assured him that it would be impossible for
him to advocate the treaty, and then Fabens proposed that the Senator sit down and write a treaty which he could support, asserting at the same time that it would be agreed to by Baez. Mr. Sumner was unwilling, however, to consent to annexation on any terms, and gave

Fabens his reasons. noens ma reasons.

During the conversation, Mr. Sumner asked Fabens if he thought that annexation would stop with Santo Do

mingo. "Oh, no!" replied the Dominican Envoy, "you must have Havti too."

"And is that all !" continued the Senator. Pabens thought that we could not stop with Hayti, but must, in the nature of things, finally absorb Porto Rico, Jamaica, Cuba, the Windward Islands, and, indeed, all of the West Indies. Mr. Sumner then called the attention of Fabens to the fact that the treaty involved not only the question of the annexation of the little republic of Santo Domingo, but an entirely new foreign policy for the United States. He professed his friendship for the people of the island, and his willingness to aid them by every means in his power; but while he doubted that Santo Domingo would in the end gain by annexation, he

was sure that the United States would lose.

Mr. Summer believes that the West India Islands are destined to be the home of the black race. In proof of this he points to the fact that in almost every instance the blacks have increased there much more rapidly than the whites, so that in some of the islands the white population is not more than 25 per cent of the whole, while in many others it is less than 50 per cent. Mr. Sumner also hopes that at some future day there will be established in the West Indies a great and prosperous republic, and desires that the United States do everything in its power to bring about this desirable end.

NOMINATIONS BY THE PRESIDENT. WASHINGTON, April 4.—The following nominations were sent to the Senate to-day:

W. A. Eling, to be Consal at Stockholm,
Join Bowles, to be Surveyor of Customs at Savannah, Ga.
William G. Laidlow, to be Assessor of Internal Revenue for the Thirty-first District of New York.

The Spring trade sale of books, stereotype plates and blank work opened restorday morning, at Clinton Hall, the stock including consignments from Jas.

Beribner & Co., G. P. Putnam & Co., and other publishing firms. The sale began with an invoice of James R. Osgood & Co. In the evening a consignment from Charles Taber & Co., New-Bedford, Mass., was sold, consisting of card and cabinet photographs, stereoscopic views, chromos, heliochromos, ambrotypes in passe-partouts, and stereotype plates. A large number of booksellers were in attendance throughout the day, and fair prices were generally obtained. The sale will be resumed this morning at 9 o'clock.

ALBANY.

REPUBLICAN ABSENTEES-SECTARIAN APPROPRI-ATIONS-THE DRUG CLERK BILL.

ALBANY, April 4.-THE TRIBUNE'S strictures on the position of those Republicans who were absent when the vote was taken last Thursday evening on the Eric Directors' Classification act, have created considerable uneasiness among the said absentees. Several Re publican members have requested your correspondent to state that Mr. Shepardson of Chenaugo was called to New-York on important business two days before the vote was taken. It is certain that several of Fisk's lackeys, occupying the position of Tammany members of the Assembly, were detailed to discover who of the Republicans were out of town, as well as the causes of their absence. In this way, it is stated, Mr. Shepardson's name got on the Tammany black list. Mr. Fisk of Madison, was suffering from a severe pulmonary complaint, and has been under the care of the doctors for several days. It should be stated that no one, not in the secrets of the Eric Ring, knew until the meeting of the Legislature on Thursday evening that the vote on Erie was to be taken at that time. It is probable that other members may also have reasons for their absence which would justify them to their constituents.

There was a four hours' discussion in the Senate tonight upon the resolution proposing an amendment to the State Constitution, prohibiting the appropriation of moneys by the State, or any town or city in the State, to the schools of any religious denomination. It was very apparent that the Democracy are unwilling to submit the plain question to the judgment of the people.

Accordingly Mr. Hardenbergh offered an amendment to the resolution, making the proposed amendment forbid the appropriation or loan of any public money in aid of any individual, society, denomination, or corporationthereby converting the resolution into a measure hostile to all forms of State aid for railroads or any other purpose. Mr. Hardenbergh was supported by all the Democrats in a solid body. Amendment after amendment was proposed to meet the assumed objections of Senator Hardenbergh, but it was impossible to satisfy him. He pro-fessed to be ardently in favor of the principle of sectarian exclusion, but he would not take it pure and simple; he would have a rider on it which he knew would make its success before the people hopeless. The Democrats chuckled as their champion so adriotly evaded the issue, and the result was the defeat of the whole proposition.

and the result was the defeat of the whole proposition.

Your correspondent was in error yesterday in what he said in regard to Tom Fields's Gas bill. That bill gives to a tew fortunate individuals, without the imposition of cerporate restrictions whatever, a perpetual monopoly of lighting Central Park and the adjacent districts. If Fields got the Governor's name to the bill, he need be under no necessity of coming to Albany again. This is one of those bills which get through the Legislature without anybody's knowing what is in them.

The bill in relation to the licensing of drug-clerks in the City of New-York, when it received approval of the Governor on the 2sth ult., had assumed the following shape:

#### LEGISLATIVE PROCEEDINGS.

SENATE ... ALBANY, April 4, 1871. Bills were introduced incorporating the Atlantic Warehouse and Transportation Company; authorizing the construction of a railway in Brocklyn from near Hamilton-ave. Ferry to the village of Jamalea, with branches; incorporating the New-York Stock Exchange, to authorize other Associations or Corporations to trans-fer their property and effects thereto, and to authorize

fer their property and effects thereto, and to authorize the accumulation of a fund for the families of decased members, and to incorporate the American Morigage and Trust Compuny of the City of New-York.

The bill increasing the powers of the St. Mary's Hospital in Rechester was rejected.

Bills were passed incorporating the "Sisterhood of Gray Nums" of the State of New-York; amending the Poughkeepsle Water act; to prevent fraud in the sale of coal in New-York City; incorporating the Traders' Storage and Deposit Company; incorporating the Staten Island North Side Railroad Company; amending the Railroad Town Bonding act; amending the act extending the powers of supervisors; for the better protection of health in New-York, and incorporating the Poughkeepsle German Bodeley, Racess.

EVENING SESSION.

The Senate took up as the special order the various resolutions offered during the session to amend the Constitution:

First: To punish bribery at elections with disfranchise ment. Adopted by 21 to 2.

Second: Requiring that no money shall be paid out of the Treasury, or any fond of the State, except in pursuance of an appropriation; and also that no money shall be paid out of the State Treasury, or any of its funds, for the use, support, or benefit of any religious corporation, or any sectarian school or institution of learning under the control of any religious sect or denomination; nor shall any county, city, town, village, or municipality make a gift or lease of any property for the same purpose.

tion, and Messrs. Parker, Kennedy, Woodin and Weed sustained it.

Mr. Parker moved to add a prohibition against granting aid by any city or other manicipality. Lost—11 to 1s. Mr. Hardenbergh insisting that these appropriations had all been made to charitable institutions and not to schools, he therefore effected as a substitute a resolution to bring these institutions under the operation of the prohibition, excepting those established by and under the control of the State. Carried—11 to 1o.

Mr. Hubbard moved to except railroads. Lost—7 to 13. The resolution as amended was then lost—15 to 11.

The next resolution taken up, providing that the Court of Appeals set apart a number of certain causes for consideration of the Commission on Appeals, on the motion of Mr. Tweed the time of operation was extended to three years, and the resolution was adopted. Adjourned.

Bills were passed repealing the act creating the Metropolitan District Board of Health, so far as it applies to Westchester County, and conferring powers on town trustees; amending the law for the assessment and collection of taxes on farms divided by county lines; to legalize orders made by County Judges.

The bill amending the act relative to wharfage in New-York and Brooklyn being reported by the Committee on Cities, Mr. Mosely objected to the report on the ground that the bill should be considered by the Committee on Commerce and Naviestion.

Cities, Mr. Mosely objected to the report on the ground that the bill should be considered by the Committee on Commerce and Navigation.

Mr. Goodrich explained that the passage of this bill would have the effect of reducing the cost of grain in New-York at least one-fourth of a cent per bashel.

Mr. Mosely moved to recommit the bill to the Committee on Commerce and Navigation. Lost, 34 to 61, and the bill was ordered to a s third reading.

The Governor returned the bill incorporating the Knickerbocker Loan and Trust Company without his approval. His objection is that it grants altogether too much power and too many privileges. The vete was austained.

The Senate then entered the Chamber, and in Joint Trust Company and in Joint Trust Chamber, and Indiana, a

approval. His objection is that it grants altogether too much power and too many privileges. The vete was sustained.

The Senate then entered the Chamber, and in Joint Convention a vote by ballot was had for superintendent of Public Instruction, with the following result: Abram B. Weaver, 84, Jose T. Peck, 66.

57 The President of the Senate then announced that the Hon. Abram B. Weaver having received a majority of votes cast, is duly elected Superintendent of Public Instruction for the ensuing three years. The Joint Convention then dissolved.

The bill amending the charter of the Bond Deposit Company of New-York enabling the Mayor and Common Council of Long Island City to horrow money to fester the inland commerce of the State by inviting and rewarding an invention by which the transit or canals will be necelerated, was taken up.

Mr. Aivord noved to recommit this bill with instructions to amend it so as to admit plans of towage.

Mr. Littlejohn moved to add that no scheme contemplating railroad tracks on towpaths should be considered, and he opposed the Belgian or Cable towing which was known to be feasible in France and elsewhere. What was wanted was something new, and not to pay \$150,000 for a plan already in use. He also wanted to increase the number of turns from 130 to 200 tims. For this he was willing the \$150,000 proposed should be paid.

Mr. Alberger sustained this view. It was allimportant that this experiment should be on the basis of 200 tims. He had made this proposition when the subject was upbefore, but the Honse was not in a temper to consider it. What was needed was to keep the carrying capacity of the cables up to the highest point.

Mr. Husted moved to amend by excluding the Belgian eystem and railway towage. Carried.

Mr. Littlejohn's amendment was also adopted.

Mr. Alvord's amendment, with those restrictions, was then adopted, and the bill was recommitted to be amended as directed.

The bill to consolidate the debt of the City of New-York, was passed. Recease to 7; p.m.

EVENING SESSION.

A resolution was received from the Senate sking the return of the bill reducing the rates of wharfge at New-York and Brooklyn. The request was oposed by Mr. Nelson and others, on the ground that the 
tenste desired to kill the bill, and, after much excitement and heated conversation, the request was granted ment and heated conversation, the request was granted by a vote of 54 to 52.

Bills were passed authorizing the consolidation of gas-light companies with the Metropolitan Gas-Light Com-pany of Brooklyn; incorporating the New-York Pro-duce Commission Company; regulating Coroner's in-questa in the City of New-York; to consolidate the in-debtedness of the County of New-York; amending the charter of the New-York City Loan and Trust Company. THE ADJOURNMENT OF THE SUB-COMMITTEE OF THE METHODIST BOOK CONCERN CON-DEMNED.

The Sub-Committee having been appointed to do a certain work, could not with propriety adjourn sine sie, leaving that work unperformed. They were in duty bound to continue their sessions till the impracticability of agreement had been more clearly demonstrated. Nor will the Church to the semi-official construction of the scope of their duties which The Christian Advocate promulgates. The Church is intent on having the question of "frauds and loises" settled; it will have it settled, no matter who opposes. It does not accept the finding of the Book Committee, inasmuch as the majority and minority did not agree. It will have the transactions of the Book Committee of its Publishing House searched through and through, and no factics will turn it from the execution of its purpose.
